

# TECHNICAL SPECIFICATION PENDANT LAMP

## UNDER THE BELL

“Under The Bell is not just a lampshade. When hung over a table or in an open environment it creates its own space within the bigger space. That way, the lamp embraces and shelters the table and people beneath it – both physically and in a more abstract sense. The recycled plastic felt even absorbs sound and helps improve the acoustics of your room.” Iskos-Berlin on the design.

PROCESS	Large sheet of PET material is heated in a mould and pressed into its form.
DESIGNED BY / YEAR OF DESIGN	Iskos-Berlin / 2011
TYPE	Pendant light
LAMP DESCRIPTION	Under The Bell is a large lamp that works well high above the ground or close to where you sit. Either way it will create a space within space and the soft felt will help improve the acoustics of your room.
ENVIRONMENT	Indoor
