Pivot High Stool, Pivot Counter Stool, Pivot Stool

Pivot enables the healthy switch between standing and sitting in a spontaneous and dynamic manner. It is not a desk that is raised or lowered, but the user; instead the user works at a tall work table and sits on a pivot, or stands at the table, depending on the requirements. This physical motion boosts the circulation and prevents tensions and postural damage.

Materials:

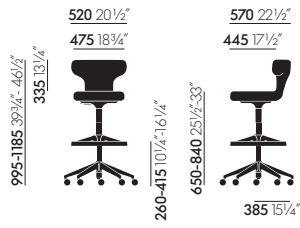

Seat and backrest shell: one-piece seat and backrest shell made of polypropylene with polyurethane foam and SingleKnit cover.

Pivot High Stool: high work chair complying with DIN 68877. Five-star base either in basic dark or polished die-cast aluminium with reverse braking castors. Seat height adjustable. In addition, fitted with height-adjustable base ring with anti-skid footrest. Adjustment ring for height adjustment of the base ring is always in the colour soft green.

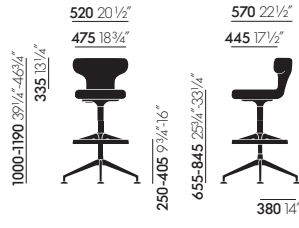

Pivot Counter Stool: high visitors chair complying with EN 13761. Polished die-cast aluminium four-star base with glides. Seat height adjustable. In addition, fitted with height-adjustable polyamide base ring with anti-skid footrest. Adjustment ring for height adjustment of the base ring is always in the colour soft green.

Pivot Stool: without base ring in normal swivel chair height. Seat height adjustable. Five-star base of polyamide in basic dark or polished die-cast aluminium with double castors (Ø 60 mm) or glides.
