

TECHNICAL SPECIFICATION SHELF SYSTEM

MINI STACKED

"How to be specific and generic altogether? Shelving systems have a tendency to achieve one concern but never both. We decided to dimension shelving units based on the generic measurements of things to store and display while allowing for them to be combined according to specific needs and desires. The result can be at times a random stack of boxes or a coordinated grid of efficient storage... or both!" JDS Architects on the design.

PROCESS

White cubes: Every side is cut out of MDF, then assembled, glued together and painted with three layers of PU lacquer. Ash cubes: Every side is cut out of MDF with ash veneer, then assembled and glued together.

DESIGNED BY / YEAR OF DESIGN

JDS Architects / 2012

TYPE

Stackable shelf system

OPTIONS

All modules with backboards. Medium ash also available with grey or yellow backboard.

DESCRIPTION

Mini Stacked by JDS Architects is a small and versatile addition to the Stacked system. The cubes hang neatly on the wall individually or together, creating graphic and functional storage.

ENVIRONMENT

Indoor / Free standing or wall mounted

MODULE DIMENSIONS (CM)

Small:	W 33,2	D 26	H 16,6
Medium:	W 33,2	D 26	H 33,2
Large:	W 49,8	D 26	H 24,9
Stacked Clips:	W 2,5	D 1,6	H 2,5

MATERIAL

MDF ash veneer

COLOUR / REFERENCE CODE

Stacked:	White:	RAL 9016
	Ash	
Clips:	White	

CLEANING INSTRUCTION

Remove dust from shelves with a soft cloth or remove abrasive dust particles. When necessary clean with moist cloth. For wood veneer finishes, dry immediately with soft cloth following wood grains. The wood should not be subjected to excessive heat, direct sunlight or humidity.
